Hello Karen,

On the Block Transfer Filing form, when asked, "Is the Terminating Provider Group part of a "narrow network" product offered by the Plan?", the Plan answered, "yes".

Regarding the Narrow Network, Pathway EPO Exchange Network, please explain or confirm:

1) Any inpatient hospital-based services available to affected enrollees at Terminating Hospital that would not be available at any of the Alternate Hospitals,

Plan Response1: Services available to affected enrollees at the Terminating Hospital are available at one or more of the Alternate Hospitals. The Plan does not anticipate any problems with the ability of the alternate hospitals to provide the same out-patient and/or in-patient services available at the terminating facility. If there is a service identified that is a covered benefit and only available at the terminating hospital the Plan will make every effort to ensure services are provided at the terminating hospital. When a covered service is not available or accessible at a participating network hospital or specialty facility in the Plan's' network members will be allowed to receive that service at a non-participating hospital as appropriate; reimbursement at in-network benefit level.

2) For any hospital-based services no longer available to affected enrollees post termination, how enrollees will continue to access such services. If any, please confirm that the enrollees will be able to receive these services at in-network benefit levels,

Plan Response2: Please refer to Plan Response1.

3) Any admitting privilege issues to the Alternate Hospital(s),

Plan Response3: There are no admitting privileges issues to the Alternate Hospital(s).

4) Name of Provider Groups that Admit to the Terminating Hospital as Part of the Product,

Plan Response4: There are no provider groups that primarily admit to the Terminating Hospital as part of the product.

5) The number of admits and bed days utilized by enrollees for the most recently completed calendar year, by enrollees in the Plan's reported Narrow Network, and

Plan Response5: There are no admits / bed days utilized for the most recently completed calendar year, by enrollees in the Plan's reported Narrow Network.

6) How the Plan will meet the Knox-Keene Act's geographic access standards and/or Department approved alternative access standards.

Plan Response6: The Plan's analysis determined all Zips are covered in the 15/30 by the Alternates or contracted hospitals.

Please provide a response by March 26, 2026.

Thank you.
