Hello Ms. Choate,

Please see the amended Approval attached. Additionally, please advise the Department of the contracting status: agreement reached, extension

(include new termination date), or not contracted.

Thank you!

Stacie Litovchenko

Hi Stacie -If the contract terminates, the Plan will facilitate medically necessary follow up care related to trauma injury requests through its existing utilization/case management processes. This includes assistance with authorization and care coordination, as needed. Given that most trauma-related follow up care would not require treatment at a Level II trauma center, but can be provided by specialty physicians and in outpatient settings (e.g., orthopedic follow-up, imaging, wound care, rehabilitation), the Plan will authorize medically necessary follow up services at the nearest available in-network provider/facility (including the Plan's identified alternates). If medically necessary follow up service is not available in-network or cannot be scheduled timely within a reasonable geographic distance, the Plan will authorize the member to receive services out of network, with claims processed at in-network benefit levels. Trauma-center-level follow-up services will be provided at an adult trauma-designated facility when medically necessary. Since there are few adult trauma-designated hospitals and these may be beyond 15-time/30-distance standards, the Plan will facilitate access to the nearest adult trauma-designated facility, including authorizing care even when the facility is outside the 15/30 standard, with claims processed at the in-network benefit levels. Thx Karen

Hello Ms. Choate,

The Department acknowledges the Plan's position regarding EMS/911 routing for Trauma Level II cases. To better understand how enrollees' needs will be addressed following the Termination Date, please clarify how the Plan will facilitate referrals for medically necessary follow-up care related to Trauma Level II injuries, and identify the Alternate Hospital(s) that will provide comparable services within a reasonable geographic distance and timeframe. Based on this information, the Department will consider whether any modifications to the Approval with Conditions are appropriate.

Thank you so much!

Stacie Litovchenko

Hi Stacie - The provider contract was extended through May 8. Regarding the decision letter, Item 1a: "1. If the contract terminates, the Plan will allow its contracted providers and provider groups to continue referring services to the Terminating Hospital after the Termination Date, and to continue to allow all affected enrollees to receive at the Terminating Hospital after the Termination Date: a. any medically necessary services available at the Terminating Hospital, but not available or cannot be scheduled in a timely

manner consistent with good professional practice at an Alternate Hospital or other in-network contracted hospital facility within a reasonable geographic distance, including, but not limited to, Trauma Level II or..." The Plan respectfully disagrees that Trauma Level II can be addressed through the post-termination referral approach or 'redirected' to the Terminating Hospital as described in item 1(a). For EMS/911-routed trauma cases, destination is determined by EMS routing protocols and clinical necessity—not by member choice or provider referral patterns. Please refer to Plan's response to the Department's Comment Letter, #10. Thank you Karen

Dear Ms. Choate:

Please find attached an Approval with Conditions in regards to Block Transfer Filing 2026-HOSP-283 ("Filing").

Within one business day after the release of enrollee notices, please notify the Department.

Within one business day after the Termination date (as reflected in the Filing), please advise the Department of the contracting status: agreement reached, extension (include new termination date), or not contracted.

Please contact me if there are any questions regarding the above.

Thank you,

Stacie Litovchenko
