Hello, The Plan has recently learned that the extension until January 1, 2027 did not include the Medicaid contract and therefore the termination date has been revised to reflect the October, 1 2026 termination date on the resolution tab.

Hello, Members are not assigned to hospitals and at the time of the filing the utilization reports were not yet available. The utilization report however shows that 4997 members had services at the hospital in last 12 months.

Good morning Mr. Escobar,

Thank you for your response to the most recent comment letter. The Department has one additional question for the Plan. In the Block Transfer filing, the Plan reports zero enrollees who will be reassigned or redirected. However, the filing also reflects 141 bed days across 27 admissions within the past calendar year for the medical group(s) utilizing the terminating hospital.

Given this utilization, it is unclear how there would be no enrollees affected by the proposed contract termination. Please explain this discrepancy and confirm the accurate number of enrollees who may be reassigned or redirected as a result of the termination.

Thank you!
