**Your health care provider may go out-of-network.
Here's what you need to know, and how we can help.**

Dear <FRST_NM> <LAST_NM>,

Optum Care Network-Desert Cities is currently part of your Cigna Healthcare plan network. We want you to know, however, that starting July 1, 2026, this provider may leave the network. If that happens, the provider group would no longer be in-network, and you may pay more to get care from this provider.

What if your provider does go out-of-network?

If your medical group leaves your health plan network, they will no longer have a contract with your health plan. This means you'll likely pay more for the same services. For example, you would have to pay 100% of the cost (if your plan doesn't have an out-of-network benefit).

- If you are enrolled in a Point of Service plan, refer to your out-of-network certificate for benefit plan information regarding out-of-network coverage.

What you need to know

You will soon receive a new ID card. It will have the name, address and telephone number of the new provider group and physician information.

If your provider does leave, you may want to find a new in-network provider before July 1, 2026, and we're happy to help you do that. You can call us anytime at 1.800.244.6224. Our Customer Service Advocates are available 24/7/365, and can help you find an in-network provider in your area. We can help with transitioning other parts of your care, including new referrals, prescriptions, and Continuity of Care eligibility.
