Re: Proposed Contract Termination with Lakewood IPA, Inc.
Block Transfer Filing No. 2026-PROV-97
Filed on March 10, 2026

Dear Ms. Litovchenko,

This is in response to your comment letter regarding the information in the above-referenced Block Transfer Filing (Filing) submitted by Cigna HealthCare of California, Inc. (Plan.)

Please review the Plan's responses below.

1. The Plan identifies the terminating entity in the enrollee notice as 'PHS Premier Health Services IPA Network.' However, the Plan's explanation acknowledges the group was previously known as 'Lakewood IPA' and was recently acquired by UC Irvine Health. Please clarify if 'Lakewood IPA' is the name currently displayed on affected enrollees' ID cards or in the most recent provider directory. If so, the Plan must revise the notice to include the 'dba' or former name (e.g., 'PHS Premier Health Services IPA Network, formerly known as Lakewood IPA') to ensure enrollees clearly identify their terminating provider. Please update the enrollee notice accordingly, and resubmit to the Department for its review.

The Plan confirms that "PHS Premier Health Services IPA Network" is the name that is recognized by its enrollees. The name "PHS Premier Health Services IPA Network" is the name that appears on an Enrollee's Identification (ID) card and published as such in the Plan's provider directory. Therefore, the Plan is using "PHS Premier Health Services IPA Network" name on the enrollee notices accordingly. The notices provided to the Department reflect the correct name.

3. The Plan indicates in the Receiving Groups section of its Filing that Receiving Group Allied Physicians of California, A Professional Medical Corp answered "Yes" to a Corrective Action Plan (CAP). Please discuss the impact of this CAP regarding the proposed Block Transfer.

Allied Physicians of California, A Professional Medical Corp scored very close to passing in its most recent claims delegation audit. An upcoming scheduled review is expected to provide further visibility into continued progress and overall readiness, with current performance and engagement indicating a positive trajectory. As such, the Plan does not anticipate a negative impact as a result of this CAP to the proposed Block Transfer.

4. The Plan indicates in the Receiving Groups section of its Filing that Receiving Group **Family Choice Medical Group, Inc.** answered "Yes" to a Corrective Action Plan (CAP). Please discuss the impact of this CAP regarding the proposed Block Transfer.

While Family Choice Medical Group, Inc. is currently subject to Corrective Action Plans (CAP), the Plan's delegation oversight team is actively engaged in ongoing monitoring and oversight of this group and is working to ensure timely and effective remediation. 8. On the Block Transfer Filing form, the Plan reports that **Regal Medical Group** will be receiving 137 enrollees. However, on the Confirmation of Capacity document attached by the Plan, the document only confirms up to 45 enrollees. Please provide a Confirmation of Capacity for **Regal Medical Group** that confirms the group's capacity to receive all 137 enrollees being reassigned. If the Plan reassigns these members to another Receiving

Provider Group, the Confirmation of Capacity needs to confirm the additional enrollees to be received by that Receiving Provider Group(s).

The Plan has received two email confirmations from Regal Medical Group. Please refer to the following exhibits submitted as attachments with this response:

- **Exhibit 1 – This exhibit contains an email confirmation pertaining to the non-Narrow Network Enrollees. Regal Medical Group has confirmed capacity to accept 104 members.**

Please provide a Confirmation of Capacity for **Affiliated Doctors of Orange County Medical Group, Inc.** that confirms the group's capacity to receive all 115 enrollees being reassigned. If the Plan reassigns these members to another Receiving Provider Group, the Confirmation of Capacity needs to confirm the additional enrollees to be received by that Receiving Provider Group(s).

Please provide a Confirmation of Capacity for **Allied Physicians of California, A Professional Medical Corp** that confirms the group's capacity to receive all 18 enrollees

being reassigned. If the Plan reassigns these members to another Receiving Provider Group, the Confirmation of Capacity needs to confirm the additional enrollees to be received by that Receiving Provider Group(s).

- **Exhibit 4 – This exhibit contains an email confirmation pertaining to the Narrow Network Enrollees. Allied Pacific of California has confirmed capacity to accept 7 members.**

11. It appears that the Plan included a reassignment chart in lieu of a Confirmation of Capacity document for **Professional Care Medical Group, Inc.** Please provide a Confirmation of Capacity document for **Professional Care Medical Group, Inc.** to show that this medical group can receive 119 enrollees.

Professional Care Medical Group, Inc. is part of Prospect. The Plan has received an email referencing “Prospect Professional Care Medical Group, Inc.” and their capacity to accept 106 members. Please note that although this medical group accepted 106 members, the Plan will need to reassign 105 members to this group. To the extent that the Plan had confirmation from the group acknowledging acceptance of a higher number of members (confirmed 106 versus 105), the Plan did not obtain re-confirmation from the group to accept 105 members. the group's capacity to receive all 72 enrollees being reassigned, or confirm which line items represent the count for Prospect Medical Group, Inc. If the Plan reassigns these members to another Receiving Provider Group, the Confirmation of Capacity needs to confirm the additional enrollees to be received by that Receiving Provider Group(s).

The following groups are part of Prospect and have been bundled into Prospect Medical Group, Inc. RBO 10339 in this filing as these groups do not have their own individual RBOs. Please refer to Exhibits 3 and 4 attached with this response.

- **Daehan Prospect Medical Group, Inc.**

On March 16, 2026, the Terminating Medical Group indicated to the Plan that it will not provide the requested report at this time, as it is too early in the process to generate meaningful results.
