Re: Approval with Conditions
Proposed Contract Termination with Corona Regional Medical Center Main
Block Transfer Filing No. 2026-HOSP-259
Filed on March 2, 2026

Dear Ms. Uiagalelei:

The Department of Managed Health Care (Department) has reviewed the information in the above-referenced Block Transfer Filing (Filing) submitted by **UHC of California** (Plan) for compliance with the requirements of the Knox-Keene Health Care Service Plan Act of 1975, as amended (Cal. Health & Safety Code § 1340 *et seq.*) and the regulations promulgated thereunder (Cal. Code Regs., Tit. 28, § 1000 *et seq.*).

In the event of contract termination, the Filing proposes to remove **Corona Regional Medical Center Main** (Terminating Hospital) from the Plan's hospital network. The effective date of contract termination between the Terminating Hospital and the Plan (Termination Date) is currently **June 30, 2026**.

The Plan proposes to redirect affected enrollees to the following Alternate Hospitals:

- Doctors Hospital of Riverside (Parkview Community Hospital Medical Center)
- Placentia Linda Hospital
- San Antonio Regional Hospital

Based on the Plan's representations and information provided through the review process, the Department hereby **approves** the Plan's Filing, subject to the following:

1. If the contract terminates, the Plan will allow its contracted providers and provider groups to continue referring services to the Terminating Hospital after the

Termination Date, and to continue to allow all affected enrollees to receive at the Terminating Hospital after the Termination Date:

- a. any medically necessary services available at the Terminating Hospital, but not available or cannot be scheduled in a timely manner consistent with good professional practice at an Alternate Hospital or other in-network contracted hospital facility within a reasonable geographic distance, including, but not limited to, Acute Psychiatric, Plastic Surgery Spine Surgery or
 - b. any medically necessary services available at the Terminating Hospital where an in-network provider holds admitting privileges at the Terminating Hospital and is unable to admit enrollees to an Alternate Hospital or other in-network contracted hospital facility within a reasonable geographic distance in a timely manner consistent with good professional practice. or
 - c. any medical necessary services available at the Terminating Hospital which, due to insufficient capacity, an enrollee may not be able to access at an Alternate Hospital or other in-network contracted hospital facility within a reasonable geographic distance in a timely manner consistent with good professional practice.
2. For the Plan's affected enrollees accessing the Terminating Hospital under Condition 1, the Terminating Hospital will continue to be deemed a participating, in-network provider. For these affected enrollees accessing the Terminating Hospital, the copayment, deductible, percentage coinsurance or any other cost sharing components for care accessed under the aforementioned conditions shall be no greater than the financial responsibility the enrollee would have had if the enrollee received the services from the Terminating Hospital prior to the Termination Date.

If a dispute arises between the Terminating Hospital and the Plan concerning the reasonable and customary value of the provider's service, the Plan shall protect and hold the enrollee harmless for any amount above the enrollee's in-network copay, deductible, coinsurance or other cost sharing component.

3. For the Plan's affected enrollees accessing the Terminating Hospital under Condition 1, the Plan will directly pay to the Terminating Hospital, as applicable:
 - a. the amount required by any post-termination rates set forth in the contract between the Plan and the Terminating Hospital,
 - b. the amount set forth in any negotiated letter of agreement or other negotiated arrangement between the Plan and the Terminating Hospital regarding the services, or
 - c. the reasonable and customary value of the hospital's services, less the enrollee's established in-network copay, deductible, coinsurance or other cost sharing component.

4. The Plan will not take any adverse action, financial or other, against the Terminating Hospital with regards to the services identified in these conditions (this does not preclude the Plan or Terminating Hospital from utilizing any dispute resolution mechanism that would otherwise be available). In addition, the Plan will not take any adverse action, financial or other, against any contracted provider for admitting affected enrollees to the Terminating Hospital in order to receive services required by these conditions.
5. With respect to these conditions, “deemed to be a participating in-network provider” does not apply to emergency services or post-stabilization services rendered to Plan members at the Terminating Hospital following the Termination Date, nor does it affect any existing statutory and/or regulatory payment obligations with respect to these services.
6. No later than five (5) calendar days after the Termination Date, the Plan shall provide written notice to each enrollee who has an upcoming procedure authorized or scheduled at the Terminating Hospital **within the next six months**, as well as those who had accessed the Terminating Hospital **at least once during the past year**, subject to any waivers granted by the Department.

The notices shall be consistent with the conditions of this Approval, including informing enrollees of the availability to access the Terminating Hospital at in-network benefit levels.

7. Within five (5) calendar days following the Department’s issuance of this decision, the Plan shall submit proposed provider notices to the Department for approval. The Plan shall not distribute provider notices until it receives Department approval as to the form and content of the notices.
8. No later than ten (10) calendar days following the Termination Date, the Plan will notify, in writing, those contracted providers and provider groups that may be affected by the contract termination. The provider notices shall be consistent with the conditions of this Approval and include:
 - a. the termination and effective date of termination,
 - b. the conditions of this Approval, and
 - c. the method by which providers may refer and admit enrollees to the Terminating Hospital such that enrollees may access the Terminating Hospital at in-network rates in accordance with the conditions of this Approval.
9. With respect to enrollees who are approved to receive Completion of Covered Services from the Terminating Hospital, the Plan shall ensure that the copay, deductible, percentage coinsurance or any other cost sharing component for such care is no greater than the financial responsibility the enrollee would have

had if he or she received the services from the Terminating Hospital prior to the Termination Date. (See Cal. Health & Safety Code § 1373.96.).

10. If the Plan reaches an agreement with the Terminating Hospital after the above enrollee transfer notices are sent, the Plan must promptly inform the Department and convey an additional enrollee notification to each affected enrollee, in accordance with the requirements set forth in Cal. Code Regs., Tit. 28, § 1300.67.1.3(f).
11. In the event that the effective date of removal of the Terminating Hospital from the Plan's network is delayed by **90** or more days, the Plan must request, and the Department must grant, an extension of this Approval for it to remain in effect.
12. If the Plan determines that information submitted in this Filing is materially incorrect, it will promptly notify the Department. The Plan must also promptly notify the Department of any changed circumstances or new information that is material to this Filing.
13. The Department reserves the right to revoke, modify or terminate this approval at any time based upon changed circumstances or new information that is material to the filing, or for non-compliance by the Plan with any of the Conditions listed above.

Please contact me if there are any questions regarding the above.

Sincerely,
