Dear Jessica Castillo:

The Department of Managed Health Care (the "Department") has received the information submitted in Block Transfer Filing 2026-HOSP-436 ("Filing") submitted by Health Net of California, Inc. (the "Plan") on July 1, 2026. At this time, the Department accepts the Filing as an Information Only Filing.

The Department requests that the Plan immediately notify the Department regarding any changed circumstances, incorrect information, or new information material to the Plan's submission regarding this matter. The Department reserves its right to revoke or modify this acceptance of the Plan's submission as an Information Only Filing, based upon changed circumstances or based upon the Department's receipt of new or additional information.

Thank you for submitting this information.

Please contact me if you have any questions.

Chris Loyd

Greetings Block Transfer Team, The Plan would like to clarify that the Alternate Hospital identified in the filing was selected solely to facilitate submission through the DMHC portal. The ophthalmology services at issue will be redirected to participating outpatient and ambulatory surgery center settings; however, the portal does not provide an option to identify outpatient or ambulatory facilities as alternate service locations. Additionally, the directly contracted network (DCN) provider group was identified solely for filing purposes and is not impacted by this department closure. The Plan confirms that no impacted provider groups have been identified as a result of the ophthalmology service line closure. The Plan also advises the Department that an Enrollee Transfer Notice filing has been submitted under Filing #20262760 to address this scenario. As previously reported in the filing, the Plan identified no impacted enrollees, no impacted medical groups, and no reportable utilization associated with the discontinued ophthalmology service line. Accordingly, the Plan does not anticipate any disruption in access to medically necessary ophthalmology services as a result of this department closure. Thank you, Jessica.
